2.23 Commerce, Pollution Control Agency, the commission, and any political subdivision of the
2.24 state must forward to the department a copy of each complaint received before August 1,
2.25 2017, alleging noise pollution from a large wind energy conversion system (LWECS), as

3.1 pollution from a LW ECS that are filed with the department. The department must contact
3.2 the complainant to ascertain whether the situation alleged in the complaint is still ongoing,
3.3 and may conduct a site investigation for ongoing complaints. Pollution Control Agency
3.4 staff may accompany commission staff to a site investigation and measure the level of noise,
3.5 including low-frequency noise, at the residence.

3.6 Subd. 3. **Commission action.** (a) If the department determines that there is a likelihood
3.7 of an association between the health conditions alleged in a complaint and the operation of
3.8 a LW ECS, the department must forward that determination and any supporting documentation
3.9 and materials to the commission, which must evaluate the information and determine under
3.10 the applicable rules whether there is good cause to (1) modify the permit of the LW ECS
3.11 owner or operator, or (2) revoke the permit.

3.12 (b) Within 30 days of a commission decision to modify or revoke a permit under

3.24 (b) The commission's decision to modify or revoke a LW ECS permit under subdivision
3.25 3 is stayed for 120 days from receipt of the notice provided under subdivision 3, paragraph
3.26 (b). If the owner or operator of the LW ECS has not made an acceptable written offer to
3.27 acquire the land designated by the landowner within the 120-day period, as evidenced by
3.28 written notice from the landowner to the commission to that effect, the commission must
3.29 proceed with the modification or revocation of the permit.

3.30 **EFFECTIVE DATE.** This section is effective the day following final enactment.
