

Clean Energy and Economic Development Initiative

An interagency, public-private initiative to
better integrate economic development
and energy policy strategies

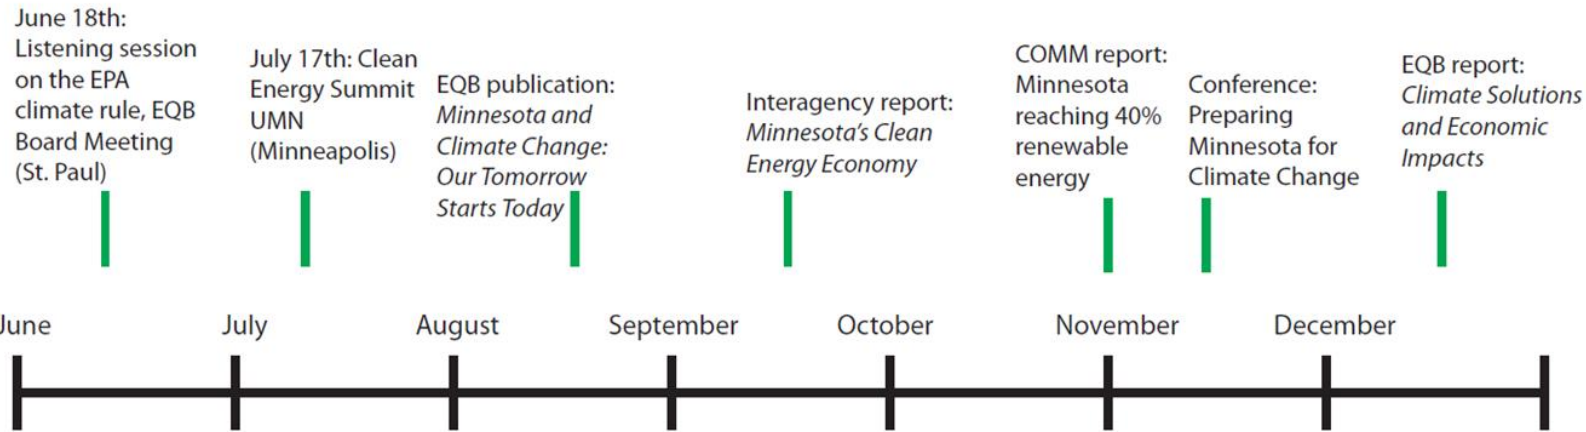

Clean Energy and Economic Development Initiative

- Minnesota selected as one of four states to participate in DOE/NGA's Clean Energy Economy Policy Academy
- Goal is to better integrate economic development and energy policy strategies
- Leadership from DEED, Commerce, Agriculture, EQB and others. Team include private sector leaders.
- Clean Energy Summit on July 17th, 2014

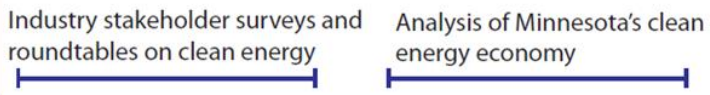

Key Activities

- Survey of businesses for clean energy economic analysis underway now
- Five sector roundtable meetings in June (wind, bio-, solar, efficiency, smart grid)
- Clean Energy Economy Summit, July 17, University of Minnesota
- Recommendations to the Governor in September
